Volume 46 Number 2

October 2010

RROS General Meeting Thursday, October 14th, 7 p.m.

"Guyana: Birds and Other Wildlife" Ken Wilson (Talon Tours)

The country of Guyana, formerly known as British Guiana, is located on the northeastern shoulder of the South American continent and is bordered by Venezuela, Brazil, Suriname and the Atlantic Ocean. Guyana has a population of approximately 770,000, 90% of whom live along the developed coastlands; the official language is English and the national sport is Cricket.

Due to its history and location, much of Guyana remains in a pristine natural state that is comprised of coastal waters, mangroves, marshes, savannas and mountains with the remaining 80% in tropical rainforest. Within these habitats there are 225 species of mammals, 880 species of reptiles and amphibians, and 814 species of birds.

Of the 814 species, there are 72 families and 70 species that are endemic to the Guiana Shield, an ancient plateau watershed between the Amazon and Orinoco river basins that is approximately two billion years old. Join us on this exploration through a power point presentation with photos Ken has taken on tours to this largely unbirded country.

Directions to the meeting: From Hwy 101 take Hwy 116 West toward Sebastopol. Turn right (north) on Llano Rd. and go ~ 1 mile to **Laguna Wastewater Treatment Plant at 4300 Llano Rd, Santa Rosa**. Look for an open gate on right. Proceed to Administration Bldg. at SE corner of the plant. From Hwy. 12, take Llano Rd. south about 3 miles. Plant is on left.

FIELD TRIPS - Autumn 2010

Saturday, October 9, 2010 Bodega Bay

Meet at Rail Ponds/Horse Parking at 8 a.m. From the town of Bodega Bay, drive N on Hwy 1. Turn left at East Shore Rd (the Bodega Head turnoff) Turn Rt at stop sign and continue 0.3 miles to unpaved parking lot on the right. Bring Lunch, Layers, Bins, Scopes, Sunscreen, Hats and Field Guides. This is the time for vagrants on the coast. Leader TBA. Questions, Ellen Blustein evireo@gmail.com or 623-9404

Tuesday, October 12, 2010 Bodega Bay

Meet at Rail Ponds/Horse Parking at 8 a.m. (see driving instructions above) Bring Lunch, Layers, Bins, Scopes, Sunscreen, Hats and Field Guides. This is the time for vagrants on the coast. Leader Ruth Rudesill - 833-6026

Saturday, November 13, 2010. Vic Fazio Wildlife Area, Davis Sewage Ponds, Woodbridge Road.

In search of wintering waterfowl, cranes and any reported rarities, like Mountain Plovers. Bring bins, scopes, field guides, food for a long day, sunscreen, hats, H2O, and clothing layers. Be prepared to carpool. Meet 7a.m. at the Petaluma park-n-ride at Lakeville Hwy and Hwy 116. Leader- Richard Merriss Questions; Ellen Blustein 707-623-9404

Tuesday, November 16, 2010 Capay Valley in Yolo County

All day field trip to western Yolo County. Meet at 7:15 am at the Park n Ride at the intersection of Hwys 116 and 121 south of Sonoma. (There is a gas station next to here.) We will car pool as much as possible.

For those who live in Napa Valley or points east, please call for a meeting time or place. We should be in Cordelia by 7:45 or so.

The route will be 121 to 12 to 80 to 505 to 16. Capay Valley is along Cache Creek. There are numerous little parks along the creek with restrooms (some outhouses and some real) But there are no places for purchasing food. Bring plenty of snacks, liquids and a lunch. We will end up in Colusa County and come back via Hwy 5 or 505. (Going west through Lake County takes a long time.) Major rain storm will cancel.

Questions, call Ruth in the evening at 707-833-6026 or ruthier@sonic.net

Breeding Bird Atlas - Observations begin in January for revision

January 1st 2011 we begin a repeat of the surveys done in the past to create the **SONOMA COUNTY BREEDING BIRD ATLAS**. The first two orientations are scheduled for

Wednesday, Nov 10th, 6-8 p.m. at Laguna Wastewater Treatment Plant, 4300 Llano Rd. Saturday, Nov 13th, 3-5 p.m. at Laguna Wastewater Treatment Plant, 4300 Llano Rd. Folks interested in signing up for the orientation or who have questions can email (preferred) Veronica Bowers at vlbowers@gmail.com or phone 829-2955 for details

Atlas field surveyors are the category that is most in demand, but other volunteer jobs are available. Contact Veronica <u>vlbowers@gmail.com</u> if you can help in any way.

Owens Valley Field Trip Report - August 27-29, 2010 by Lisa Hug

Most of us arrived Friday evening sharing hopeful anticipation of great birding for the next couple of days. Our leader - Mike Prather, showed us a great time (Thank you, Mike)! We spent Saturday morning looking at shorebirds in the wetlands of the Owens Lake Bed and went up into the mountains in the afternoon. We repeated this strategy on Sunday, adding a different wetland property on the Owens Lake Bed, where we saw LeConte's Thrasher and Lesser Nighthawk - highlights for most participants. We had a lovely evening Sunday compiling the bird list, as we ate and drank well (thank you Don). We were all very pleased with this list, as we very seriously argued, bargained, and finally agreed upon what was really seen and not seen. But, as we left the restaurant, a strong gust of wind arrived and yanked the sacred list from Ellen's hand. I chased it into the street and caught it with my foot, but was unable to grab it with my hand, without tearing a muscle or my pants. It was last seen flying down Main Street in Lone Pine. The list below is a reproduction, strongly based in the truth of the original list. Participants were Ellen Blustein, Janet Bosshard, Peter Colasanti, Jim Fritzhand, Don Howard, Lisa Hug, Rick LeBaudour, Richard Merriss, Karen Nagle, Linda Petrulias, Elaine Pruett, Rhio Reigh, David Sexton, Bob Speckels, Shirley Spina, and Michael Stevenson.

Birds seen: Gadwall, American Wigeon, Mallard, Cinnamon Teal, Green-winged Teal, Redhead, Greater Scaup, Ruddy Duck, Sooty Grouse, California Quail, Eared Grebe, Pied-billed Grebe, Great Blue Heron, White-faced Ibis, Turkey Vulture, Northern Harrier, Northern Goshawk, Cooper's Hawk, Red-tailed Hawk, American Kestrel, Peregrine Falcon, Prairie Falcon, Virginia Rail, Sora, American Coot, Snowy Plover, Semipalmated Plover, Killdeer, Black-necked Stilt, American Avocet, Spotted Sandpiper, Greater Yellowlegs, Willet, Lesser Yellowlegs, Whimbrel, Long-billed Curlew, Stilt Sandpiper, Marbled Godwit, Western Sandpiper, Least Sandpiper, Baird's Sandpiper, Long-billed Dowitcher, Wilson's Phalarope, Ring-billed Gull, California gull, Common Tern, Rock Pigeon, Mourning Dove, Eurasian Collared Dove, Lesser Nighthawk, Anna's Hummingbird, Rufous Hummingbird, Hairy Woodpecker, Northern Flicker, Western Wood-pewee, Empidinax sp. Pacific-slope Flycatcher, Black Phoebe, Say's Phoebe, Western Kingbird, Loggerhead Shrike, Steller's Jay, Clark's Nutcracker, American Crow, Common Raven, Horned Lark, Tree Swallow, Violet-green Swallow, Northern Rough-winged Swallow, Bank Swallow, Cliff Swallow, Barn Swallow, Mountain Chickadee, Red-breasted nuthatch, White-breasted Nuthatch, Bewick's Wren, Marsh Wren, American Dipper, Golden-crowned Kinglet, Ruby-crowned Kinglet, Blue-gray Gnatcatcher, Townsend's Solitaire, American Robin, LeConte's Thrasher, European Starling, Orange-crowned Warbler, Yellow Warbler, Yellowrumped Warbler, MacGillivray's Warbler, Common Yellowthroat, Wilson's Warbler, Western Tanager, Green-tailed Towhee, Chipping Sparrow, Savannah Sparrow, Dark-eyed Junco, Black-headed Grosbeak, Red-winged Blackbird, Brewer's Blackbird, Great-tailed Grackle, Brown-headed Cowbird, Cassin's Finch, House Finch, Lesser Goldfinch, House Sparrow (106).

Thanks to Ellen for organizing this great field trip!!

Special Donations to RROS: Thanks to those who made donations last month in the memory of Jack Groce –Betty Burridge and Benjamin D. Parmeter, MD. Gratitude also to those who gave additional donations this month: Carol Brant, Donald K. Howard, Jr, Marilyn & Jack Jones, Andy LaCasse, Donald McCarthy, John E. O'Connell, Peter Colasanti, and Phyllis Schmidt.

Redwood Region Ornithological Society (WWW.RROS.org) was organized in 1962 "to encourage the study and conservation of birds, other wildlife, and their natural habitat." Meetings are held the second Thursday of each month September through May, at 7:00 pm at the Laguna Waste Water Treatment Plant, 4300 Llano Road, Santa Rosa California, unless otherwise announced. Dues are \$20 per family, \$15 per individual or \$5 per student for a one-year membership. Send dues to RROS Treas. Don Howard, 979 Hogwarts Circle, Petaluma CA 94954.

50th Anniversary Celebration for RROS

This year RROS will celebrate 50 years of support to the local birding community! **Location needed for event** - We are looking for someone who is willing to host this event at their house. Save the possible date of December 9th for this event, and plan to attend. We will share stories and photos of past events and our hopes for the future. Watch for more details to come. To help in any way, contact Rhio, 579-3400.

AOU Changes to Official NA Bird Check List

reported by Ruth Rudesill with special thanks to Rich Stallcup for most of the summary

In August, the American Ornithologists' Union published its 51st Supplement to the Check-List of North American Birds, with some significant changes that are of interest to us locally:

- 1) Black Scoter *Melanitta americanus* is split from the (European) Common Scoter *M. nigra*. (It was first published to be American Scoter but that was corrected.)
- 2) English name of Puffinus gravis is now Great Shearwater.
- 3) Whip-poor-will is now split Eastern Whip-poor-will Caprimulgus vociferous and Mexican Whip-poor-will C. arizonae.
- 4) Winter Wren or the Wren (Jenny Wren) Troglodytes troglodytes is split three ways: Pacific Wren T. pacificus (our local one) Winter Wren T. hiemalis (eastern US) and the Eurasian Wren remains T. troglodytes

There were splits of some Central American Trogons. Many order Herons and Ibis have been moved to *Pelicaniformes*. Tropicbirds have their own order, *Phaethontiformes*. Family: Longspurs and Snow Buntings are in their own family, *Calcariidae*. Some Genus and species names are changed, corrected or taxonomic order changed mainly due to genetic data. Big changes in our sparrows: the "brown" towhees are now genus *Melozone*. And warblers -Orange-crowned, Tennessee, Virgina's, Lucy's and Nashville Warbler are now genus *Oreothlypis*. There are also new species added to the US list from documented and accepted sightings. For the entire report see: www.aou.org

Fall 2010 Migrants

This seems to be an unusually productive year for finding fall migrants right here in Sonoma County. Shollenberger, Bodega Harbor including Owl Canyon, Santa Rosa Creek west of Willowside Road, and elsewhere. What an opportunity to find rare birds right in our own backyard. Outer Point Reyes has also been a gold mine of 'good' birds. It needs to be said that birders' skills, as well as the number of good birders sharing their sightings are increasing significantly. We are so lucky to have folks like Rich Stallcup and our own Ruth Rudesill, and others willing to share, and to teach us.

— Betty Burridge
