

SONOMA COUNTY BIRD LIST

The following is a complete list of Sonoma County birds as of September 21, 2023. The county list stands at 466 species, including seven introduced species and one extirpated species (California Condor). Note that pelagic bird records are included on the Sonoma County list based on the nearest-point-of-land method for determining county of occurrence. The species names and order follow the American Ornithological Society's Check-list of North American Birds, including supplements through the 64th Supplement (06 July 2023). Introduced species are marked with an "I".
